

Polytape150™ is a market-leading packing tape that not only saves time and money, but will also dramatically reduce your packaging waste. The secret of Polytape150 is a small core and a huge roll length – simple but ingenious!

Now used in packaging operations worldwide Polytape150 is set to revolutionise your packaging operation.

With 150 meters of tape per roll, it is nearly 3 times the length of standard 66 metre rolls. Polytape150 will dramatically increase the productivity of your packaging operation.

Considerably cheaper per metre than the industry accepted standard rolls, it will not only save you money and ensure a reduction in downtime due to changing finished rolls, it will also dramatically reduce the amount of accrued waste.

Extra-long 150m rolls of tape on a 50mm core

A new standard is rolled out – Probably the best tape in the world

- Big 150m roll length, means less roll changes and downtime
- Environmental benefit – nearly 60% saving in packaging waste
- Premium adhesive systems and high performance acrylic grades
- Plain, custom printed and standard texts
- Superb ergonomically designed tape dispenser

Many users are moving to 150m Polytape rather than industry accepted 66 metre rolls.

It no longer makes sense to use 66m rolls of standard packaging tape when Polytape150, with nearly 3 times the amount of tape per roll offers the most cost-effective solution on the market.

The question of improved ROI is guaranteed.

Polytape150 offers significant environmental, cost and efficiency benefits over standard tape and is available in the following varieties:

Polytape150 Buff	48mm x 150m
Polytape150 Clear	48mm x 150m
Polytape150 Fragile	48mm x 150m
