

Excellent customer service has ensured our success as an award-winning supplier of polythene bags, covers, tubes, films, wraps and stretch film.

We offer free advice and a quick response to all enquiries. Our friendly staff provide both help and practical support, fully discussing each client's individual requirements in order to advise a fit-for-purpose solution for each project.

Our exclusive ability to provide a choice of materials across our product range ensures you receive the best quality product at a highly competitive price – specifically manufactured to fulfil your requirements.

The Polylite™, Polyair™ and Polycomp™ materials provide three exciting alternatives to standard polythene products.

Our extensive range of products meets the packaging needs across all of these market sectors.

- Food and drink
- Printers and mailing houses
- Building and construction
- Agricultural
- Pharmaceutical
- Petrochemical
- Local government

Polythene UK can quickly supply from stock all types of packaging, including polythene bags, pallet covers, shrink films and stretch material in a wide variety of sizes and specifications.

Our products are divided into 3 categories.

- Bags and covers
- Films and tubes
- Stretch wrap and stretch film

Our customer services team can tell you how to maximise your cost savings and reduce your company's carbon footprint by switching to our PolyLite or Polyair products based on your current polythene product specifications.

For a fully environmental solution to household and business waste we offer our Polycomp bags, which are fully compostable within ten days, yet strong and effective during use.

All our products are backed by our comprehensive no-quibble guarantee with next day delivery within the UK for stock orders placed before 2pm.
